## MLS FAQ'S

### HOW TO ANONYMOUSLY REPORT A LISTING

If you think a listing in Pillar 9 is displaying incorrect information, in the Agent Full display, on the right-hand side you'll see a CAUTION icon, this is how you Report a Listing Infraction. When you click this icon, a separate window will open, and you can select from a list of common issues under SUBJECT and/or elaborate under CONCERN.

Submitting a report is Anonymous. The Listing Agent(s) will also receive a copy of the Error Report description/ message, the reporting Agent name will NOT be visible on their copy. CARA can see who makes the report, but we do not divulge this information when correcting the issue.

Please note that the Report an Error Feature is not to be used instead of an agent-to-agent conversation, as that is always the first step to resolve any potential data concerns. CARA staff cannot accept reports via phone calls or emails; CARA cannot submit any reports on a REALTORS® behalf.

Abuse or misuse of this feature will be dealt with accordingly.
